

From: DancEncounter To: Pre-schools; Day-cares; Community Colleges/ Local Programs and Senior Center's Activities

Hello,

Is dance implemented as a part of your pre-school/ educational/ recreational curriculum, after school program, or retirement activities offerings?

We are writing to introduce DancEncounter School of Dance and we are excited to share we are celebrating our 30th anniversary in our Geneva, IL studio location. My name is Tracy and I have been owner and director of DancEncounter since 2001.

Being passionate about children, and all the learning benefits and creativity that dance brings them and all who participates in dance, we are looking to branch out to the pre-school education, child care and senior communities, as we march and leap into a new decade of dance life and aim to make the studio mobile. We love building relationships with children, youth, teens and adults through dance- seeing their confidence, imagination and physical strength soar.

Our senior instructor, Ms. Jenny Donahue, who has been part of the DancEncounter family for twenty years, is looking to head up a team of mobile instructors and offer the value of the inclusion of dance, among many things, in children's education and recreation, as well as the fitness and vitality for all ages.

We have been reaching out recently to inquire about the possibility of offering dance within your programs within the area and we would love an opportunity to discuss any needs you might have, what we may offer and if there is opportunity for sharing our love of dance and nurturing little and/or big hearts, minds and bodies within your school/ community.

We can offer field trips, summer camps, fall / school year programs and recommend standard lessons in the following format: 2-3 yrs for 30 mins, 3-4 yrs for 45 mins, 4-5 yrs 45 or 60 mins, seniors 45/60 mins or even 90 mins gentle combination of styles. Field trips and camps can be a little longer if incorporating story time or a simple craft. Ms. Jenny is one of the few teachers in the dance industry who is as well versed with the littlest student, as she is, with the beginning youth or experienced teen. Ms. Cece is passionate about Mindful Movement, Dance Fitness and how gentle movement and stretching improves the spirit as well as the body. Pricing is customizable and can be created around a flat fee during school hours perhaps or a registration basis for after school hours (of course minimum enrollment would need to be met- potentially \$10 per student for 30 mins and \$12 per student for 45mins or \$15 for 60 mins). Payments and enrolment can be handled via DancEncounter (there's typically a registration fee, but we are waiving that for 2023), or via your organization. We are open to exploring convenient methods for your and each institution.

Please feel free to reach out to Jenny or Tracy with any dialogue or questions. We would love to visit your facility to understand the space and talk further, whenever that is convenient. We look forward to understanding how the DancEncounter family values may mesh and supplement the caring institution you have built.

Please reach us by phone or text on 630 232 1221 or email at dancencounterweb@gmail.com.

Sincerely,

Tracy
